
SAF-HOLLAND wishes you success today!

Diary April 2010

Welcome to the TROST show on 17th and 18th April at the local trade show in Stuttgart: Visitors can expect an attractive event as well as comprehensive product and expert information.

The world show Bauma is from 19th to 25th April in Munich: You can find SAF-HOLLAND in Hall A6, Stand 121. We look forward to seeing you there.

Mobile Exhibition Stand offers products and information at first hand

Competence on Tour – Advice on site: With a fully equipped Infomobil, SAF-HOLLAND offers commercial vehicle technology up to date and live: Selective models are on display as well as comprehensive information on all products from SAF-HOLLAND. The Infomobil can also be made available exclusively to all interested customers, after arrangement, for example for in-house exhibitions.

If you are interested please send an email to info@safholland.de

Product Update: New Spheroid Cast Fifth Wheel SK-S 36.20 sets new standards

The new spheroid cast fifth wheel SK-S 36.20 is as technically perfect as its predecessor but even lighter and very maintenance and repair friendly.

Optically the new SK-S 36.20 can be recognised by the shortened plate. The fifth wheel has been supplied to well-known tractor truck manufacturers for original equipment since 1st April. The Aftermarket supply with Original spare parts will soon be starting.

Premiere at the Bauma: new Swivel Axle with Auxiliary Drive

SAF-HOLLAND presents, in cooperation with Faymonville and Poclair, the co-developed SAF ZMP9 for heavy vehicle trailers. The swivel axle has a hydraulic motor which can be switched on and can be seen at the Faymonville stand.
