

SAF FLEET CONCEPTS

DRIVE SAFELY
AND PROFITABLY
WITH THE
SAF safe+easy
SERVICE PACKAGE

safe+easy

safe+easy IS THE PROTECTION FORMULA FOR YOUR TRAILER:

What is safe+easy?

safe+easy is a service package from SAF-HOLLAND – specially developed for trailers and semi-trailers:

Trailer and semi-trailer operating costs are calculated in advance and converted into a monthly km-related lump sum payment.

safe+easy thus protects you reliably against unscheduled visits to the workshop and unanticipated repair and service costs.

Three simple preconditions for safe+easy:

1. You keep a service logbook.
2. You observe the service instructions.
3. You accept the SAF-HOLLAND standard labour times.

What does safe+easy offer you?

The safe+easy service package guarantees you absolutely concrete benefits for your business:

A permanent contact person

An experienced colleague looks after you personally and handles everything for you: quickly and reliably – safe+easy.

Cost acceptance guarantee

In the event of damage, safe+easy confirms to the workshop in advance that the costs for labour and materials will be paid – guaranteed.

Complete handling

All service and repair work is handled directly with the workshop – you don't have to worry about anything.

Availability guarantee for original parts

safe+easy sets up a consignment store at the workshop of your choice and hence ensures that your workshop always has all the necessary parts in stock.

Monitoring and payment of workshop bills

The workshop services are monitored, all receipts are checked – and only then is the bill paid for you by us.

Additional services on request

EBS brake system and trailer electrics, emergency tyre service, statutory safety inspections (TÜV)

SAFETY AND CONCRETE BENEFITS FOR YOU – WHEREVER YOU DRIVE!

How does safe+easy work?

Quite simply – in three steps:

1. First of all, the so-called „life cycle costs“ for the trailer or semi-trailer are determined by a basic calculation.
2. This is followed by a scenario calculation in which consideration is also given to various wear factors.
3. The final step is the exact km cost calculation, in which the vehicle configuration and the type of operation are also evaluated. The ultimate result is a fixed km cost price on which the shipping company can reliably base its plans.

Absolute transparency and planning security:

safe+easy reliably protects you against unscheduled visits to the workshop and unanticipated repair costs.

On the safe side – from the 1st kilometre.

Where can you get safe+easy?

Ask your vehicle manufacturer or SAF-HOLLAND:

If you have a question about safe+easy or would like a customised calculation for your fleet, please feel free to contact me. You can reach me under

The formula for your protection Trailer

I'm sure that the obvious benefits of safe+easy will pay off for your business, too – you can take my word for it.

Anton Bigelmaier, Head of Fleet Support and Service Concepts

SAF's history begins in 1881 in a village forge in Germany with the invention of a new plough. The family business soon starts building steel axles for agricultural vehicles, and under the name Otto Sauer Achsenfabrik (SAF) develops into one of the leading manufacturers of trailer axles and suspension systems in Europe.

A safety coupling between plough and horse team can be found at the beginning of Holland's history. The Safety Release Clevis Company is founded in South Dakota, USA, in 1910. After its move to Holland, Michigan, the company emerges as one of the largest supplier companies to the commercial vehicles industry under the name The Holland Hitch Company.

The merger of the two companies to form SAF-HOLLAND in 2006 creates one of the leading global suppliers of high-quality components and services for the commercial vehicle industry. Alongside axle and suspension systems for trailers and semi-trailers, the product range also includes kingpins and landing gear as well as fifth wheels for tractors, air suspensions, coupling products and numerous other components for buses and trucks.

Today SAF-HOLLAND is represented on all continents and distributes its products and services worldwide under the brand names SAF and HOLLAND. It can boast of an extensive distribution network with global service and dealer locations.
