

## Holland FW351 fifth wheel technical information update

SAF-HOLLAND have recently made design changes to the FW351 fifth wheel. These are as follows:

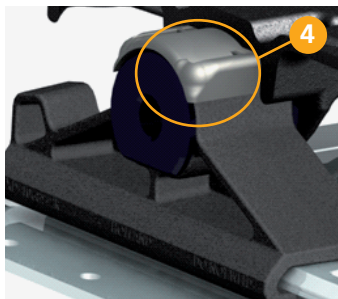

Product: FW351  
Model: XA-351-A  
Part No: CAST XD-351-H

Obsolete (current) FW351 Fifth Wheel

New FW351 Fifth Wheel

Lube Free Pocket Insert

Modular Bolt-On Bracket for Air Release

### Product Improvements

1. Cast steel top plate surface (no longer machined);
2. Larger grease grooves above pocket area for improved grease retention;
3. Wider throat area, designed to assist drivers when coupling;  
Improves the kingpin target by a further 20%;
4. One piece replaceable lube free pocket inserts which eliminate the need for routine greasing;
5. Provision for modular bolt on air release brackets for simplified the aftermarket installation;
6. Weight savings of 5 kilograms.

### Additional Information

No changes to BOM or part numbers fit or function of the fifth wheel.
