

Installation Tool for Intra-Series Pivot Bush

SAF-HOLLAND Australia offers the following range of hydraulic tools for the easy installation of Intra-series pivot bushes.

Part numbers for each of the four parts depicted above are listed in the table below. Please note that if a hydraulic pump is already available, it can be fitted directly to item 2 (the actuator), provided that the hose fitting matches the actuator's thread (3/8 18 NPT), or a suitable adapter will be required. If no hydraulic pump is available, parts 1, 2, 3 and 4 should be purchased.

No.	Article No.	Description
1	3 434 3317 00	Mounting tool
2	4 434 3302 00	Actuator *
3	4 434 3303 00	Tube
4	4 434 3304 00	Pump **

* Actuator specifications:

Stroke (mm) = 152 mm

Thread = M 68x2

Hose / coupling connecting thread = 3/8 18 NPT

** Pump specifications

Connecting thread = 3/8 18 NPT
