

SAF CBX Trailer Air Suspension Axle Systems

Product Change Notice for SAF PosiLift™ Air Lift Feature

Effective with shipments November 2012

Please Note:

SAF-HOLLAND has made product enhancements to the SAF PosiLift™ air lift feature for CBX Series fixed frame air suspensions. An air spring support plate has been added between the PosiLift™ bracket tabs and the air spring for additional support (see Detail A). The air spring support plate is fastened in place with the air spring mounting studs and nuts. Alignment washers have been welded to the guide rod arm to improve alignment performance (see Detail A).

Retrofit Kit Available

Kit #48100498 includes:

- Air Spring Support Plate and
- Guide Arm Assembly
(Two kits required per axle)

Reference XL-AR462 PosiLift™ installation and maintenance literature for disassembly and assembly instructions.
