

## HOLLAND Fifth Wheels

### SAF-HOLLAND IS GOING GREEN – Transitioning from Printed to Environmentally Friendly Digital Product Literature

With the purpose of continuing our corporate green initiative, SAF-HOLLAND is going digital with product support literature for HOLLAND fifth wheels. No longer will literature kits that are shipped with fifth wheels include paper product support literature.

Product support literature will now be made available through QR codes on the XM literature kit cover sheet. Scanning of the QR code with your smart device will serve up a PDF of the manual for that particular product model. Accessing literature digitally will assure the user is referencing up-to-date document versions.

**IMPORTANT:** Along with the XM kit QR code cover sheet a coupling inspection warning decal will continue to be provided in the kit.

**⚠ WARNING / ADVERTENCIA / AVERTISSEMENT**

<p><b>ALWAYS inspect fifth wheel after coupling tractor to trailer.</b> Failure to properly couple the tractor and trailer could result in tractor-trailer separation while in use which, if not avoided, could result in death or serious injury.</p>	<p><b>SIEMPRE inspeccione la quinta rueda después de acoplar el tractocamión al remolque.</b> Si no acopla adecuadamente el tractocamión y el remolque, podría ocasionar la separación del tractocamión y el remolque durante el uso, lo cual, si no se evita, podría causar muertes o lesiones graves.</p>	<p><b>TOUJOURS contrôler la sellette d'attelage après avoir accouplé le tracteur à la remorque.</b> Un mauvais accouplement de la remorque sur le tracteur peut résulter en une séparation du tracteur et de la remorque susceptible de provoquer la mort ou des blessures graves.</p>
