

HOLLAND Landing Gear Atlas 55, Atlas 65 & Atlas iM

Retirement of Atlas Galvanizing Option

Attention

This product retirement notice applies to all **HOLLAND Atlas Landing Gear** assemblies and components.

Effective January 1, 2019, SAF-HOLLAND will retire the galvanizing option for landing gear assemblies sold to OEM and Aftermarket customers.

OEM and Aftermarket orders for galvanizing leg assemblies and accessories will be accepted until January 1, 2019. Service parts will be available through the SAF-HOLLAND aftermarket.

Aftermarket replacement components will be available for an extended period. Replacement legs will be available until January 1, 2019.

Customers seeking a galvanized landing gear assembly should consider the Mark V as alternative

If you have any questions or require additional product assistance, please contact your account manager or customer service representative.
