

SAF® Drum Brake Friction Material – New Markings

Effective: June 2020

Attention

SAF-HOLLAND® is informing all customers that our current supplier of drum brake friction material (Stemco) for our SAF drum brake axles has been purchased by MAT HD LLC. All engineering testing and certifications are complete. The certification data is available at safholland.us

This change will not impact any warranty or other commitments by SAF-HOLLAND, Inc.

See photo examples of the new friction material markings to the right.

Implementation will occur as current stock is depleted.
